**Tolerance on Length**

**NOTE:** There is no single standard for spade point high-low screws. These values are offered as a guide; deviations from these specifications may occur.

### Description
A countersunk, flat head screw with a double lead, consisting of a high and low thread; and spade-shaped point designed to drill its own hole. The head has eight protrusions, or nibs, equidistantly spaced from each other, that run from the outer edge of the head down the cone-shaped bearing surface.

### Applications/Advantages
Specifically designed for attaching cement board to plywood.

### Material
AISI 1018 - 1022 steel

### Case Depth
.004 minimum

### Surface Hardness
Vickers HV 450 - 800

### Core Hardness
Vickers HV 290 - 450

### Recommended Torque
45 kg/cm minimum

### Finish
Screws have a green ceramic coating intended to withstand a salt-spray test of 500 hours.
**Self-Tapping Screws**

**Description**

A countersunk fastener with a flat head, spaced threads and self-drilling point. The head has eight protrusions, or nibs, equidistantly spaced from each other, that run from the outer edge of the head down the cone-shaped bearing surface.

**Applications/Advantages**

Specifically designed for attaching cement board to metal studs of a thickness from 14-20 gauge.

**Material**

AISI 1018 - 1022 steel

**Case Depth**

.004 minimum

**Surface Hardness**

Vickers HV 450 - 800

**Core Hardness**

Vickers HV 290 - 450

**Recommended Torque**

45 kg/cm minimum

**Finish**

Screws have a green ceramic coating intended to withstand a salt-spray test of 500 hours.
